

**Guideline**

**A-34**

**CLAP**

**FORM N°X037**

**Version : 1**

**Directive 2014/68/EU**

**Adopted by WGP :** 15/03/2016

**Adopted by CLAP :** 15/03/2016

**Directive References:** Article 1 § 2 (s)

Article 4 § 1 (a)

Annex II

**Subject:** Scope – Slurry tanker

**Question:** Is a slurry tanker that is emptied by compressed air within the scope of the Pressure Equipment Directive?

**Answer:** Yes, if the PS of the compressed air is greater than 0,5 bar. The PS of compressed air and internal volume of the tank determine the category according to the table 2 of Annex II.

Reason: Slurry tankers are not excluded from the scope of the PED due to Article 1 paragraph 2 (s). They are not tanks intended for carriage of dangerous goods.

NOTE: "Slurry tanker" is used in farms to fertilize the fields with liquid manure. It is a tank on wheels usually pulled by a tractor in the fields and from one field to another. Compressed air facilitates the emptying of the tank.
