Version : 1

Directive 2014/68/EU

Adopted by WGP : 15/03/2016

Adopted by CLAP : 15/03/2016

Directive References: Article 13

Subject: Classification – Vessels for the storage of sanitary hot water

Question: How should a vessel which is intended to contain water below 100°C be classified when there is a marginal gas cover?

Answer: This type of vessel is classified according to Table 4, provided the gas is being continuously removed.

Examples of such vessels are domestic warm water vessels, where entering air is accumulated on the top, and is normally being removed by operation.
