

**Directive 2014/68/EU****Adopted by CLAP :** 08/01/2016**Directive References:** Annex III**Subject:** Conformity assessment – Probabilistic estimation**Question:** For modules B, G and H1, shall the probabilistic estimation, enabling to assess the reasonably foreseeable nature, of a situation or combination of loads, be subject to a conformity assessment by the body in charge of this assessment?**Answer:**  
No  
The PED does not require this estimation to be validated within the conformity assessment.  
  
The notified body shall ensure the manufacturer has taken into account the probability of simultaneous occurrence of loads.
