

CLAP

FORM N°281

Version : 1

Directive 97/23/CE

Keywords: Safety accessory

Pressure surge

Assembly

Directive reference: Annex I § 2.11.2 - 97/23 EC

Annex I § 7.3 - 97/23 EC

Adopted by CLAP: 03/02/2011

Subject: ESR on manufacturing – Safety accessory of an assembly comprising the pressure supply source

Question: When an assembly contains the pressure supply source and is designed so that the only risk of pressure surge is of short duration and within the limits of 110% of the PS, is it necessary to provide a safety accessory for protecting against this pressure surge?

Answer: Yes,

In most cases, this safety accessory will be the protective device of the pressure supply source.
