Adopted by CLAP:

Subject:

Question:

Directive 87/404/EEC gives the following definition in Annex II, point 4.1(h):
"There is series manufacture within the meaning of this Directive if more than one vessel of the same type is manufactured during a given period by a continuous manufacturing process, in accordance with a common design and using the same manufacturing process."
The term "series" should be spelt out.

Answer:

Withdrawn on March 1998

The definition of the term "series" is retained, but the term "type" is spelt out (see separate guidance document).

Reasons

The Directive's definition of "series" is the same as the definition in EN 286-1 and has stood the test of time.

Note: The notified body forum will propose a definition of "given period by a continuous manufacturing process".
